Contact	school.office@scjwells.co.uk 01749 678066

Local safeguarding referral

If you are worried about a child's safety or wellbeing, please contact the school office as soon as possible and ask to speak to the Designated Safeguarding Lead (DSL). If the DSL is unavailable, ask to speak to a Deputy Designated Safeguarding Lead.

Children, parents, carers, visitors and members of the community can all raise a concern. If you are unsure whether to report something, please speak to us so we can help.

Somerset Direct: 0300 123 2224 | Out of hours: 0300 123 2327 | DSL consultation: 0300 123 3078.

Immediate danger or emergency: call 999. Where a child is at immediate risk, take protective action without waiting for routine processes.

Locality and contextual safeguarding

St Cuthbert's Junior School is part of the Wessex Learning Trust. Its established place within the town and its supportive school community provide opportunities to build relationships with families and identify emerging needs. The school promotes an inclusive, caring environment in which children feel understood and valued.

School-specific operational arrangements

We have an OFSTED registered Breakfast Club and After School club. For further information and to reserve a place, please contact Mrs Maunders directly on 07708 982481 or email on lindamaunders@btinternet.com

Within our Busy Bees nursery, we have provision for pre-school children to attend Breakfast Club. This starts at 8am until 8.50am. The children attending Busy Bees also have the option to come to Lunch Club from 11.30am-1pm. See the Busy Bees webpage for more information.

At St Cuthbert's, we are proud to be working in partnership with Smoothwall to promote online safety for both you and your child.

The Online Safety Hub is a dedicated website offering a wide range of resources, including app reviews and practical advice for parents and carers. It is designed to help children benefit from all the positive opportunities that technology can offer, while also supporting families in developing the knowledge and skills needed to guide and protect children throughout their digital journeys.
